CHICAGO PARK SCHEME.

Plan That Involves Expenditure of Over Five Million Dollars.

CHICAGO, April 16 .- A banquet was given at the Auditorium Hotel to-night by a in favor of a lake front park east and west of the Illinois Central tracks. The guests inleuded capitalists, business men. unions and members of the State Legislature. It is proposed to embrace in the park | before their parents returned home, In the Michigan avenue, between Park row and Randolph street, west of the tracks, and to fill in a quarter of a mile of the lake east of them. The improvement projected

is elaborate and will require an expenditure Mr. D. R. Burnham, who had so much to do with preparing the plans of the world's fair, was the principal speaker and said, among other things: "New York owes to Boss Tweed a debt of gratitude, boodler though he was. Washington was made beautiful by the superb planning of Boss Shepherd; Paris was taken to pieces and put together again by Baron Hausseman, and now the annual profits to the Parisians derived from visitors to that city exceed the entire expenditure made to beautify her. The question is, can the people of Chicago take as broad riews of our own needs and exercise the power they possess to the end that the city may become supremely beautiful instead of remaining as it is, unattractive. Half-way measures will not accomplish much; to do a pretty good thing will be to waste money; only by making the improvement of great magnitude and surpassing attractiveness will we induce those who can be of highest financial benefit to this community to visit and live

REVELATIONS OF EXPERTS.

Affairs of Two Corporations in a Bad-

ly Tangled Condition. NEW BEDFORD, Mass., April 16 .- At a meeting of the creditors of the Bennett and Columbia mill corporations to-day it was discovered that \$2,400,000 in notes of the two concerns had been issued of which no account has appeared in the returns submitted to the State by the corporation. On learning this, and that more than \$100,000 had when it should have appeared as profit and loss, thereby showing a surplus instead of a deficit, it was voted to place both corporations in the hands of receivers. The affairs of the corporations are in a much it is left to the discretion of the receivers whether or not the company shall be petitioned into insolvency. From the report of the expert who has been examining the books it appears that not only have notes of the corporations aggregating two and a half account has been made as required by the statutes, but also notes of the Lambeth Rope Company to the amount of \$40,000 have long been carried. Further than this. the Columbia Company, it is feared, is so ceply involved as to make the future of the corporation well nigh hopeless, as developed to-day that notes held by the Bennett mills to an amount in excess of half a million of dollars are included in its

SHIRT TAGS REMOVED

They Were Offensive to the Aesthetic Students of Missouri University.

COLUMBIA, Mo., April 16,-Among certain students of the University of Missouri the unsightly and useless tags appended to shirt fronts have become offensive, and the edict has gone forth that they shall be removed, especially among the student body. A few of the students met recently and decided to request the removal of the tags, and on refusal to use force in cutting them Armed with knives and scissors, the anti-tag students stood in front of the law building this morning and collected shirt tags by the hundred. When a student refused to mutilate his own garment he was thrown to the ground and the offensive tag promptly cut off. The collection made today will be preserved by one of the class

Army to Be Raised and Gunboats Rented from Mexico-Spanish Soldiers to Withdraw from Cuba.

Special to the Indianapolis Journal. WASHINGTON, April 16 .- Some of the details of a wild-eyed conspiracy for the organization and launching of a tremendous filibustering expedition for the capturing of Havana and the liberation of thousand men, who are to rendezvous at This is one of a series of special things | Matamoras, Mexico, and proceed to Cuba on gunboats and other vessels rented from Mexico and storm the capital. It is said that General L. E. Colby, of Nebraska, urged in some quarters lately for appointment as assistant secretary of war, has expressed a willingness to head the expedition. To raise funds to equip the army of invasion it is proposed by the Cuban Junto to float a mass of souvenir coins and scrip. It is estimated \$1,500,000 will be required to carry out the project. The Spanish officlais in this city have known of this plot

> Spanish Soldiers to Be Sent Home. WASHINGTON, April 16 .- According to information received from trustworthy sources here the withdrawal of at least a part of the great army that Spain has maintained for several years in the island of Cuba will begin when the rainy season sets in, within a few days. The initial movement will be the departure of ten thousand Spanish troops from Havana for Spain, and within a short time after that thirty thousand troops, it is understood, will follow. Whether this movement is to be construed in favor of or against the insurgents is not possible now to say. The Spanish insist positively that it means only surrection; that Gomez has only about fifty or a hundred followers, and that to watch campaign has been necessarily conducted, a few thousand men are quite as effective as the army of 180,000 men which has been maintained in Cuba. The Cuban contingent, on the other hand, insist that the Spanish financial resources are exhausted, and that the troops are to be withdrawn because of lack of money to keep them in

Two Factories Destroyed by Fire a Tipton This Morning-First Cigarette Law Arrest.

Special to the Indianapolis Journal. MARION, Ind., April 16.-The principal witness for the defense in the Baldwin trial to-day was H. J. Paulus, one of the attorneys for the defense in the Crum-Evans trial. It was in Paulus's office that the conference was held at which, according to the story of Grief Matthews, arrangements were made to fix Juror Frank Ladd. Paulus's statements were clear and cleancut and made without equivocation. At

Paulus says, Matthews was not in the back room, and, so far as he knows, was never in that room at any time. He says he never had any conversation whatsoever with Matthews concerning the Crum-Evans trial. He denied that he had ever intimated to Phin Howard that the latter would receive anything if the Crum-Evans jury should acquit or disagree. He added that the question of the use of money to influence jurors was never mentioned in any conference in which he participated. He says the first intimation he had of it was when he saw it in the newspapers. He beyond being asked if he was acquainted with Frank Ladd. The indictment record was introduced to show that Matthews was not indicted, and Morris Fankboner testified for the defense that Matthews had told him his confession was the only way he could get out of the predicament into which he had placed himself. Fankboner said he had accompanied Crum on a visit to Matthews last summer. On cross-examination he was asked if the mission to Matthews was not to sell the latter "green goods." He replied that Crum did not call it "green On direct examination he stated that he did not know Crum's purpose in visiting Matthews. The blaze was fanned by the strong wind and at this hour, 1 o'clock a. m., the surrounding business and residence portion of the town, together with the Lake Erie & Western station, are all threatened. The loss to the factories will aggregate about \$6,000; partially insured.

Montpelier Public Square Case.

Special to the Indianapolis Journal. HARTFORD CITY, Ind., April 16.-This morning the Columbia Building Company, together with Earnest Sinclair, D. A. Walmer, John Emshwiller, John A. G. Miller, Wm. F. Sinelair, Carry H. Cleud, Dustin M. Spaulding, Thomas Shull and Calvin I. Shull, all of Montpelier, filed suits in the Circuit Court here asking for a restraining order against the mayor and Council of Montpelier to prevent the selling of four public squares of that city. These squares are four small plats of ground at the corners of the four principal business squares of the city. Abei Baldwin left them to Montpelier as public squares on Sept. 5 1837, when he laid out the city. In all there were fourteen plots of ground, 66½x60 feet, which he intended should be used as public parks, and they have been public property more than fifty years. Two years ago Carey Taughmbaugh, acting for four Montpelier men, went to California and obtained from the Baldwin heirs a quitciaim deed to the property. Later the heirs discovered the value of the property, and sought to have the deeds set aside, claiming they were obtained by fraud. The matter was patched up and the interests of both the Baldwin heirs and the men represented by Taughmbaugh were consolidated. The fight for the property went on, the Baldwin heirs claiming Abel Baldwin had never ded-Cuba on a special mission in connection | icated the squares to the city.
